**Dash** is the brand new magazine for English speaking teens around the world, produced by The Jerusalem Post. This publication will give our Jewish youth the chance to read about Israel in a way that makes it come alive. They will learn about Israeli fashion, food, fads, music, sports, culture, science and technology; issues that interest them today, that are happening here in Israel. Through the pages of Dash, Jewish teens will meet young Israelis in high school and the army, getting to know their Israeli peers on a deeper level. Teens will also have the opportunity to discover places to visit, programs to join and ways to learn Hebrew.

Bulk discount subscriptions are available. You can also check out **Dash** online at:

## **CAMERA: new curriculum**

CAMERA's (Committee for Accuracy in Middle East Reporting in America) "Brief History of Modern Israel" (Module 4) is a richly illustrated and academically sound overview of events from the later 1880's to the present while the other three modules will be useful in dealing with the regrettable but inevitable distortions that will appear in the media over the coming year.

The CAMERA curriculum is a 2-disk set. Each activity option is estimated to take from 1-2 45 minute class sessions to complete. Please send me the following information that will allow them to send the material to you as soon as they're available:

- • Name (and title)
- • Name of school/synagogue/organization
- • Shipping address (Street, City, State, Zip)
- • Preferred phone number
- • Preferred email
- • Grade level of students who may be using the curriculum
- • Type of school (Day, Community, Congregational, Other)

Thanks again for your interest in "Eyes on Israel" and an early Shanah Tovah,

Hillel Zaremba
